WE ARE.

CHANGE	KAIZEN	FOR THE BETTER

[CONTINUAL IMPROVEMENT]

"There is at least one point in the history of any company when you have to change dramatically to rise to the next level of performance.

Miss that moment, and you start to decline."

Andy Grove, Intel CEO

Kaizen doesn't mean change everything all at once or even right now. Continual improvement consists in doing something every day in our work or home environment to help improve what we do and the results we get.

It can be learning a new skill; organizing our work area or a closet; making phone contact with existing customers or friends; evaluating existing systems to update them; reviewing and prioritizing our daily and weekly task list to make sure everything is relevant and moving forward.

Ask questions often especially of yourself. "Why am I doing what I'm doing and how does it tie into the big picture of my life?"

Just don't forget to figure out what the "big picture" is for you. Decide what's important and go for it. Plan for living a long productive life and enjoy the journey. :)

OUR ONLY LIMITATION IS OUR EXPECTATION.
WHAT WE CAN EASILY SEE IS ONLY A SMALL PERCENTAGE
OF WHAT IS POSSIBLE.
